

Electricity statement

Your total new electricity charges

Standing Charge Electricity	22 days x 111p per day
Usage charge single rate - electricity	

Total supply charges

Plus VAT at 5%

If you stop paying by Direct Debit your electricity Standing Charge will go up by up to £48 (including VAT) per fuel per year.

If you have a smart meter or if you submit a meter read every month then we will send you a bill based on your actual energy usage. If you don't have a smart meter or if you are unable to submit a meter read every month then your bill will be estimated.
